- **Web Application**: Vue.js (Proficient), Nuxt.js (Proficient), React.js (Familiar), Angular.js (Familiar), Node.js (Familiar), CSS3, SCSS, Bootstrap, Tailwind CSS, Svelte, SvelteKit
- **Mobile**: Android Studio, XCode, Flutter
- **Databases**: MySQL, PostgreSQL
- **Tools & Platforms:** Webpack, Docker, JIRA
- **Version Control:** Git, GitHub, GitLab, Bitbucket

Work Experience

Alokin Software Pvt. Ltd.

Software Engineer
May 2020 – Present

- Contribute to the development of CMS front-ends using Vue.js and Vuetify, ensuring a responsive and intuitive user experience
- Build features and responsive web pages using Vue.js
- Actively participated in business review processes, contributing to strategic planning and execution.
- Collaborated with cross-functional teams to optimize application performance and resolve technical challenges.
- Led a team of developers, providing technical mentorship and ensuring timely delivery of project milestones.

Pixelmargin Software Pvt. Ltd.

Software Engineer
Oct 2018 – May 2020

- Responsible for design and development of the website.
- Performing System testing and bug fixing in the PHP code.
- Environment/Language: PHP, HTML, Vue.js, MySQL, Apache Server.
- CMS/Frameworks: Drupal, Laravel

Projects

OneG8 - Social Media Application   Flutter, Dart

- Led a team full of developers, providing technical mentorship and ensuring timely delivery of project milestones
- Implemented **Local Storage**, **code splitting, and performance optimizations** to enhance user experience
- Collaborated with backend developers to integrate **RESTful APIs** for seamless data synchronization.

Property Management System   Vue.js, Vuetify, Node.js, Express, MySQL

- Developed and optimized the UI for key features to improve user experience and efficiency using **Vue.js** and designed reusable components to enhance consistency across the platform.
- Implemented **lazy loading, code splitting, and performance optimizations** to enhance user experience
- Collaborated with backend developers to integrate **RESTful APIs** for seamless data synchronization.

Storage Facility Website   Nuxt.js, BootstrapVue

- Developed and enhanced UI features for a **storage-based web platform**, ensuring a smooth user experience and **dynamic content rendering**.
- Implemented **ID verification system** for secure user authentication.
- Developed a **dynamic landing page layout** with a **mega-menu** for improved navigation.
- Improved load time through **efficient asset loading and server-side rendering (SSR)**.

Task Management System   React.js, Redux, Tailwind CSS

- Designed and developed an interactive task management system to streamline project workflows and improve collaboration among teams UI using React.js
- Developed reusable and modular UI components to ensure consistency and maintainability.
- Integrated RESTful APIs to fetch and manage tasks efficiently.

Education

- **Master of Computer Applications (MCA)**
  2014-2017
  University of Kerala
- **Bachelor of Science in Computer Science (BSC)**
  2011-2014
  University of Kerala

Certifications

- Certified SAFe® 6 Practitioner

  Certified Agile team member responsible for connecting to the Customer,

  Planning the work, delivering value , getting feedback, and relentlessly improving.
